ACKNOWLEDGEMENT

We would like thank to all those who are involved in this endeavor for their kind cooperation for its successful completion. At the outset, We wish to express our sincere gratitude to all those people who have helped us to complete this project in an efficient manner.

We offer our special thanks to our Project guide **Dr. Madhuri Bhavsar**, Sr Associate Professor & Section-Head IT, Department of Computer Science & Engineering, Institute of Technology, Nirma University, Ahmedabad without whose help and support throughout this project would not have been this success.

We would like to thank **Dr. SANJAY GARG**, Head, Department of Computer Engineering, Institute of Technology, Nirma University, who gave opportunity to do this project at an extreme organization. We are thankful to **Dr. K KOTECHA**, Director and Institute of Technology, Ahmedabad for his kind support in all respect during our study. Most of all and more than ever, We would like to thanks our family members for their warmness, support, encouragement, kindness and patience. We are really thankful to all our friends who always advised and motivated us throughout the course.

ABSTRACT

The project named "Placement Management System", a student/company information system is a web based system. The project is developed on the basis of "III Cell" being presently used in the University for storing and retrieving the information of students and companies who are registered in III Cell. The III Cell maintains a large database of students wherein all the information of student including the personal records and the academic performance in terms of the SPI and PPI is stored and company information including profile of company, eligibility criteria and facilities it provide etc. The software retrieves this data and displays as per the user requirement.

The Placement Management System is developed as an attempt to take a record of company and students by restricting such a large database to that of a particular class of students or company. The System provides the facility of viewing both the personal and academic information of the student and company it can also search for eligible students and company and also insertion and deletion of records by the administrator. Eligible students will receive an email including the details of the company and also they will receive a sms on their registered mobile number in which the date-time and location will be provided.
